

MG

Complete line of **MG-series** (3 rolls) variable depth tube expanders for low, medium and thick tube-sheets thickness **heat exchangers** and **condensers** tubes

The **MG-series** variable depth tube expanders have been designed for rolling tubes in heat exchangers. They are driven by pneumatic or electric rolling machines with torque control.

MG-800 *With 1.1/2" short rolls*

O.D. tubes
1/2" ÷ 1.1/2"
(12,70 ÷ 38,10 mm)

For low thickness tube-sheet

MG-800 *With 2.1/4" long rolls*

O.D. tubes
5/8" ÷ 1.1/2"
(15,87 ÷ 38,10 mm)

For medium thickness tube-sheet

MG-1200 *With 1.1/2" short rolls*

O.D. tubes
1/2" ÷ 1.1/2"
(12,70 ÷ 38,10 mm)

For thick tube-sheet

MG-1200 *With 2.1/4" long rolls*

O.D. tubes
5/8" ÷ 1.1/2"
(15,87 ÷ 38,10 mm)

For thick tube-sheet
